Erasmus students may request an extension of the period abroad from the Department Erasmus Delegate, subject to authorization from the host University, at least one month before the end of the initially planned mobility period.

The extension period cannot be extended beyond July the 31<sup>st</sup>, 2024.

## Types of Mobility

### LONG-TERM PHYSICAL MOBILITY

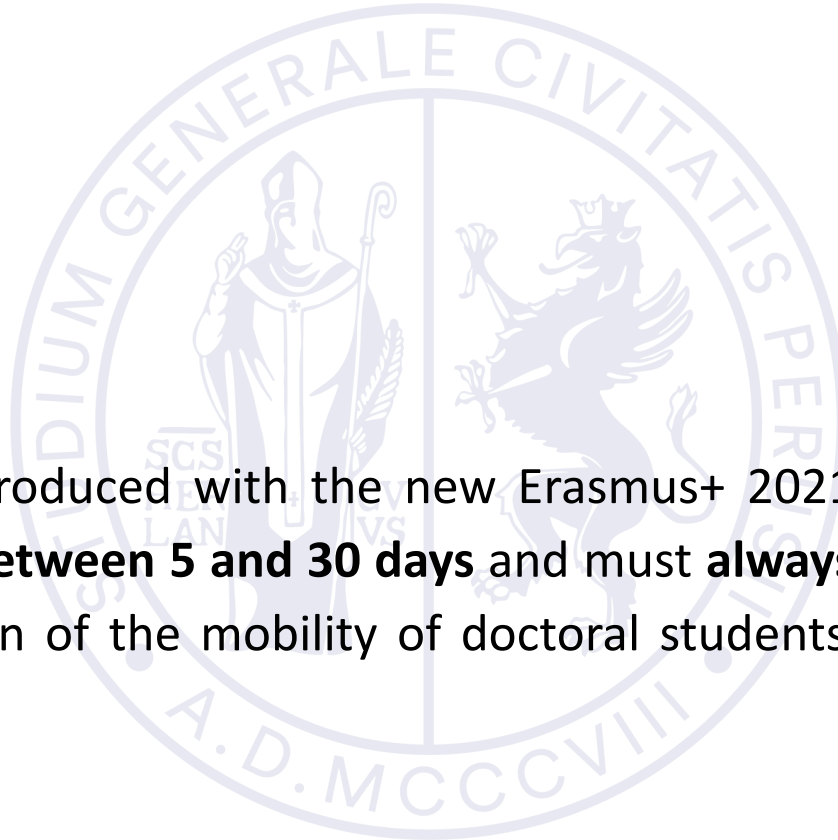

Long-term mobility (long-term physical mobility) is intended for all students enrolled in a degree course, master's degree, single-cycle master's degree, doctoral courses, masters and specialization schools of the University. This type of mobility must have a **minimum duration of 2 months and a maximum of 12 months** and its duration is established by the inter-institutional agreement stipulated by the University of Perugia with the foreign university.

## Types of Mobility

### SHORT-TERM PHYSICAL MOBILITY

Short-term physical mobility is introduced with the new Erasmus+ 2021-2027 Programme. This type of mobility must have a **duration of between 5 and 30 days** and must **always be accompanied by a period of virtual mobility**, with the exception of the mobility of doctoral students for whom the period of virtual mobility is not mandatory.

# Types of Mobility

## BLENDED MOBILITY

Blended mobilities combine physical mobility with a compulsory virtual component. Blended mobility must provide for the release of **at least 3 ECTS credits**.

- There is no minimum duration for the virtual component of the mobility;
- For the virtual part, which must be carried out in the country in which the participants' home university is located, no financial contribution will be recognized;
- The possibility of carrying out a mixed mobility must be agreed with the host institution.

## Duration of physical mobility in case of blended mobility

- **Between 5 and 30 days** - short-term physical mobility - for candidates enrolled in a degree course, master's degree, single-cycle master's degree, master's and specialization schools. **Admissible only in cases where candidates, for serious and proven health, personal, academic or professional reasons, cannot travel abroad for long periods;** these need to be detailed in the specifically dedicated section of the online application and must be examined by the Erasmus Commission of the Department;
- **Between 2 and 12 months** - long-term physical mobility - always eligible for candidates enrolled in three-year degree courses, master's degree and single-cycle master's degree courses, specialization schools and doctorates, I and II level.

**IMPORTANT**

## Requirements for participation

- a) **Being regularly enrolled** at the Università degli Studi di Perugia in the current academic year;
- b) Have adequate **knowledge of the foreign language**, as required by the host university;

- d) Having not benefit, in the same period of Erasmus+ study mobility, from a community contribution provided by other mobility programs financed with community funds.

The **status of student** enrolled in a study course at the University of Perugia must be maintained for the entire duration of the Erasmus+ study period.

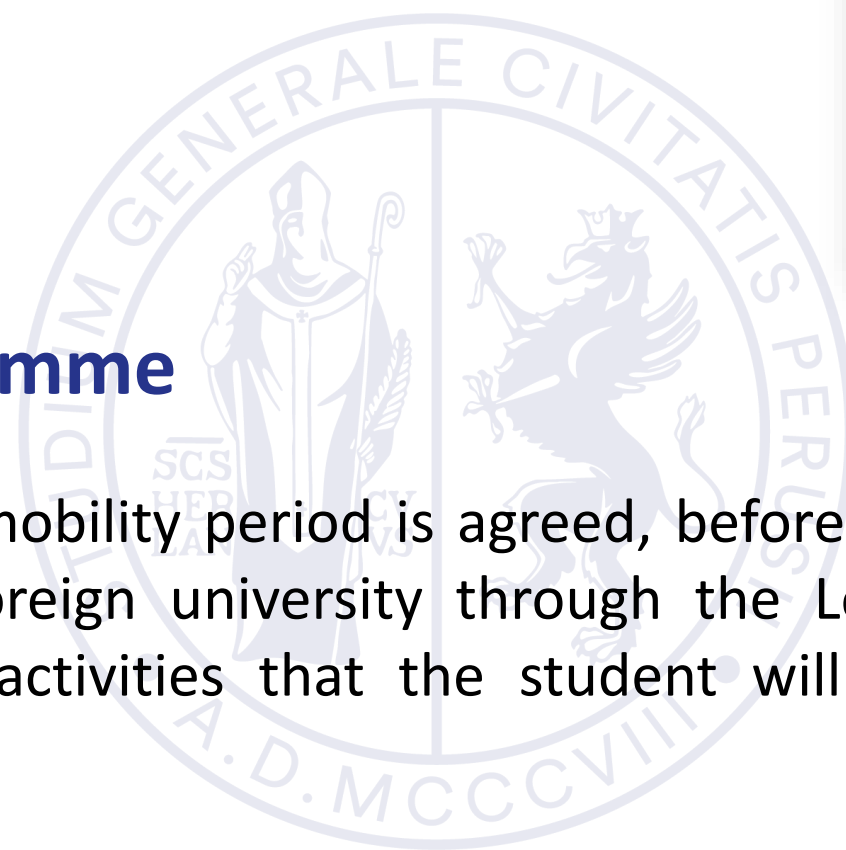

**The achievement of the degree** or qualification required by one's course, before or during the period of study abroad, entails the forfeiture of the Erasmus contribution and the obligation to repay the funding received.

## Compatibility with previous Erasmus+ experiences

Students who have already completed a period of study or internship within the Erasmus+ Program can apply under the following conditions:

- a) If enrolled in the **same study cycle** in which they carried out the Erasmus+ mobility, **the total duration of the mobility must not exceed 12 months including the months already completed** (24 in the case of a single-cycle master's degree);
- b) If enrolled in a study cycle other than the one in which they carried out the Erasmus+ mobility, the total duration of the mobility must not exceed 12 months (24 in the case of a single-cycle master's degree), without including those months already completed in the cycle of previous studies.

## Study abroad programme

The study activity for the mobility period is agreed, before departure, with the home university and with the foreign university through the Learning Agreement, which indicates the educational activities that the student will carry out at the partner university.
