

Benedetta Carlotti

CURRICULUM VITAE

Department of Chemistry, Biology and Biotechnology
University of Perugia
via elce di sotto, n.8
06123 Perugia, Italy

Home Address:
via del giaggiolo, 85/C
06131 Perugia, Italy

E-mail: benedetta.carlotti@unipg.it
Tel: +39 333 3439770

EDUCATION:

- JULY 1999: **General Certificate of Education;**
Liceo Scientifico "R. Casimiri" in Gualdo Tadino (PG), Italy
Valuation 100/100.
- JULY 2004: **Laurea Master Degree in Chemistry** at the University of Perugia, Italy.
Valuation: 110/110 cum laude.
Thesis Title: "Synthesis and photophysical properties of semiconductor nanocrystals".
Thesis Advisors: Prof. Fausto Elisei and Dr. Loredana Latterini.
Winner of the Cultural **Prize "Luigi Casati" for young graduates** awarded by the
Accademia dei Lincei.
- DECEMBER 2004: **State Abilitation** to the profession of chemist.
- FEBRUARY 2008: **PhD in Chemistry** at the University of Perugia, Italy.
Thesis Title: "Ultrafast and space resolved techniques for the investigation of
simple and complex systems".
Thesis Advisors: Prof. Fausto Elisei and Dr. Loredana Latterini.
- OCTOBER 2005–JANUARY 2007:
Visiting Research Scholar in the group of Prof. Lawrence A. Bottomley, School of
Chemistry and Biochemistry, Georgia Institute of Technology, Atlanta GA USA.

PROFESSIONAL EXPERIENCE:

- DECEMBER 2007–JUNE 2014: **Post-Doc** at the Department of Chemistry, University of Perugia, Italy.
- JUNE 2014–JUNE 2018: **Assistant Professor** of Physical Chemistry (Ricercatore a Tempo Determinato di tipo A) at the Department of Chemistry, Biology and Biotechnology of the University of Perugia, Italy. **Principal Investigator** of the project "Two-photon absorbing quadrupolar molecular systems" financed by the Italian Ministry for University and Research (MIUR) in the framework of the program "Futuro in Ricerca–FIRB 2013".
- FEBRUARY 2015: **Visiting Researcher** at the University of Geneva, Switzerland.
- OCTOBER 2015: **Visiting Professor** at the University of Coimbra, Portugal (within the Erasmus "Staff mobility for teaching" program).
- NOVEMBER 2016: **Visiting Professor** at the Aarhus University, Denmark (within the Erasmus "Staff mobility for teaching" program).

FEBRUARY 2017–SEPTEMBER 2018; FEBRUARY 2019; JULY 2019; SEPTEMBER 2022: **Visiting Researcher** at the University of Michigan, Ann Arbor MI, USA.

APRIL 2017: Italian National **Habilitation as Associate Professor** of Physical Chemistry.

AUGUST 2018–JULY 2021: **Tenure Track Assistant Professor** of Physical Chemistry (Ricercatore a Tempo Determinato di tipo B) at the Department of Chemistry, Biology and Biotechnology of the University of Perugia, Italy.

SEPTEMBER 2019: **Visiting Professor** at the University of Bordeaux, France (within the Erasmus “Staff mobility for teaching” program).

AUGUST 2021–PRESENT: **Associate Professor** of Physical Chemistry at the Department of Chemistry, Biology and Biotechnology of the University of Perugia, Italy.

OCTOBER 2022: Italian National **Habilitation as Full Professor** of Physical Chemistry.

RESEARCH INTERESTS:

Photophysics and photochemistry of organic materials in solution and in film by employing steady state and time resolved (nanosecond and femtosecond resolved) spectroscopic techniques. Push–pull organic flexible molecules interesting for applications as new low–cost materials in Non–Linear Optics, organic compounds able to efficiently function after light absorption as electron donor/electron acceptor for the design of organic photovoltaic solar cells, singlet fission materials, highly emissive organic materials for organic light emitting diodes (OLEDs), aromatic systems usable as selective colorimetric and fluorescent sensors for anions and cations, drugs and their complexes with biologically relevant metal ions and DNA, fluorescent proteins.

RESEARCH PROJECTS:

✓ Partecipazione (since 2004) to the project “Photophysical and photochemical characterization of organic chromophores in nanostructured systems and their applications” financed by the Ministry for University and Research (MUR) in the framework of the “Centro di Eccellenza sui Materiali Innovativi Nanostrutturati per applicazioni chimiche, fisiche e biologiche (CEMIN)” of the University of Perugia.

✓ Partecipazione to the project “Spectroscopy and dynamics of organic compounds: effect of the structure and medium on the properties of the electronic excited states” financed by the MUR in the framework of the program “Programmi di Ricerca Scientifica di Rilevante Interesse Nazionale–PRIN 2008”.

✓ **Responsible for the research project** “Development and Characterization of Organic Materials for Applications in Photovoltaics and Non-Linear Optics” financed by the Umbria Region (within the Piano Operativo Regionale UMBRIA FSE 2007-2013 Asse IV “Capitale Umano”) and carried out at the Department of Chemistry of the University of Perugia.

✓ **Principal Investigator** of the project “Two–photon absorbing quadrupolar molecular systems” financed by the MUR in the framework of the program “**Futuro in Ricerca–FIRB 2013**” (n. RBFR13PSB6, in PE4-Physical and Analytical Chemical Sciences) with 484.443 EUROS. The research proposal got a score of 18/18 being the first one in the ranking of the financed projects for the category Physical Sciences and Engineering (PE).

✓ **Responsible** of the Task 3.2 “A platform for the generation of biohybrid systems” within the Work Package 3 “Innovative devices and systems based on biomaterials for biomedical applications” of Spoke 10 “Biomaterials” of the Innovation Ecosystem Vitality funded within the program **PNRR 2022**.

PUBLICATIONS:

Total number of publications in international journals: **79**
(22 as first author; 22 as corresponding author)

h-index: **27** (according to Google Scholar), **25** (according to Scopus)

Total citations: **1792** (according to Google Scholar), **1607** (according to Scopus)

Reviewer Activity:

Reviewer for the following international journals: *Nature Communications, Accounts of Chemical Research, Angewandte Chemie, Chemical Science, ACS Energy Letters, Chemistry of Materials, Advanced Optical Materials, The Journal of Physical Chemistry Letters, Chemistry a European Journal, The Journal of Physical Chemistry, Physical Chemistry Chemical Physics, ACS Sustainable Chemistry & Engineering, RSC Advances, Chemical Physics Letters, ChemPhysChem, New Journal of Chemistry, Photochemical and Photobiological Science, Journal of Photochemistry and Photobiology, Journal of Luminescence, Material Chemistry and Physics, International Journal of Analytical Chemistry, Spectrochimica Acta, Environmental Pollution.*

Editor Activity:

Member of the Editorial Board of *Applied Sciences* (IF 2.474).

Review Editor on the Editorial Board of *Dyes and Pigments* (specialty section of *Frontiers in Coatings, Dyes and Interface Engineering*).

CONFERENCES:

Scientific/Organizing Committees:

- 1) Member of the Organizing Committee of the on-line **Winter School on Biotechnology 2021** (“Biotechnologies in the time of COVID-19” January 18–25, 2021) at the University of Perugia, Italy.
- 2) Member of the Organizing Committee of the on-line **Workshop** “Metodi Chimico Fisici utilizzati per lo studio di fasi condensate: informazioni dall’interazione tra fotoni e materiali” (February 24, 2021) organized by the **Division of Physical Chemistry of the Italian Chemical Society**.
- 3) Member of the Organizing Committee of the **Winter School on Biotechnology 2022** (“Complexity in Biotechnology” January 17–22, 2022) at the University of Perugia, Italy.

- 4) Member of the Organizing Committee of the **AMIS Day 2022** (Departmental Workshop on the AMIS Research Project December 21, 2022) at the University of Perugia, Italy.
- 5) Member of the Organizing Committee of the **Winter School on Biotechnology 2023** ("Biotechnology and Aging" January 23–26, 2023) at the University of Perugia, Italy.

Invited Talks:

- 1) **International Conference on Photochemistry 2021**
Geneva, Switzerland (Virtual); July 19–23, 2021
"Activating Intramolecular Singlet Exciton Fission by Altering the π -Bridge Connection in Perylene Diimide Trimers and Tetramers for Organic Solar Cells"
B. Carlotti, I.K. Madu, A.K. Muthike, H. Kim, Z. Cai, H. Jiang, L. Yu, P.M. Zimmerman, T. Goodson III
- 2) **10th Jubilee Singlet Fission Workshop 2023**
Estes Park, Colorado, USA; June 17–20, 2023
Title Yet To Be Defined

Oral Contributions: 11 at National and International Conferences

- 1) **SERMACS (The Southeastern Regional Meeting of the American Chemical Society)**
Augusta (GA), USA; November 1–4, 2006
"Does the elasticity of DNA depend upon its orientation?"
B. Carlotti, C. T. Santai, N. V. Hud, L. A. Bottomley.
- 2) **XXXVI Congresso Nazionale di Chimica Fisica**
Gallipoli (LE), Italy; June 17–22, 2007
"AFM force curve investigation of DNA elasticity"
B. Carlotti, F. Elisei, L. Latterini, L. A. Bottomley, N. V. Hud, C. T. Santai.
- 3) **XXXIX CONGRESSO NAZIONALE DI CHIMICA FISICA**
Stresa (VB), Italy; September 20–24, 2010
"Dynamics of the lowest excited singlet states of nitro- aromatics investigated by time-resolved techniques"
B. Carlotti, F. Elisei, A. Spalletti
- 4) **CONVEGNO NAZIONALE DI FOTOCHIMICA 2011**
Giardini Naxos (ME), Italy; June 10–12, 2011
"Fast and ultrafast photoinduced decay processes of ethynyl-fluorenes and ethynyl-anthracenes"
B. Carlotti, R. Flamini, A. Spalletti, A. Marrocchi, F. Elisei
- 5) **XXIV IUPAC Symposium on Photochemistry, 2012**
Coimbra, Portugal; July 15–20, 2012
"Ultrafast photoinduced intramolecular charge transfer in push- pull distyrylfuran, thiophene and pyridine"
B. Carlotti, I. Kikaš, I. Škorić, A. Spalletti, F. Elisei
- 6) **International Conference on Photochemistry, 2013**
Leuven, Belgium; July, 21–26, 2013
"Intramolecular charge transfer in the singlet and triplet manifolds of some dipolar and quadrupolar pyridinium salts"

B. Carlotti, A. Cesaretti, C. Fortuna, U. Mazzucato, A. Spalletti, F. Elisei

7) XXV IUPAC Symposium on Photochemistry, 2014

Bordeaux, France; July 13–18, 2014

“Photoinduced symmetry-breaking intramolecular charge transfer in quadrupolar systems showing positive and negative solvatochromism”

B. Carlotti, V. Barone, E. Benassi, F. Elisei, C. G. Fortuna, A. Spalletti

8) XLIV CONGRESSO NAZIONALE DI CHIMICA FISICA

Napoli (NA), Italy; September 20–23, 2016

“Photophysical and non-linear optical properties of push-pull, symmetrical and highly fluorescent benzothiadiazole derivatives.”

B. Carlotti, F. Ricci, P. Foggi, F. Elisei, A. Spalletti

9) Italian Photochemistry Meeting 2017

Perugia (PG), Italy; December 14–16, 2017

“Charge Transfer and Aggregation Effects in the Performance of Planar vs Twisted Perylene Diimide Isomers in Organic Solar Cells.”

B. Carlotti, H. Kim, I. K. Madu, Z. Cai, V. Shaparov, P. M. Zimmerman, L. Yu and T. Goodson III

10) XXVIII IUPAC Symposium on Photochemistry, 2022

Amsterdam, The Netherlands; July 7–22, 2022

“Aggregation Induced Emission in Phenothiazine Derivatives”

B. Carlotti, T. Bianconi, A. Cesaretti, C. Montanari, P. L. Gentili, R. Misra

11) 3rd International Symposium on Singlet Fission and Photon Fusion

Milan (MI), Italy; October 10–13, 2022

“A New Class of Singlet Fission Fluorene Derivatives with High-Energy Triplets under the Gaze of Fast and Ultrafast Spectroscopy”

L. Mencaroni, A. Marrocchi, F. Elisei, A. Spalletti, B. Carlotti

Posters: 33 at National and International Conferences

TEACHING EXPERIENCE:

- Teaching Assistant for the “Physical Chemistry” class of the Pharmaceutical Chemistry and Technology degree of the University of Perugia (2007).
- Teaching of a course about “Innovation in textile fibres and yarns” within a project of professional formation in the textile sector (2008 and 2011).
- Teaching Assistant for the “Physical Chemistry Lab 2” of the degree in Chemistry of the University of Perugia (2010–2014).
- Teaching of a course of “Environmental Chemistry” for the “Attività di Protezione Civile” degree of the University of Perugia (2011 and 2012).
- Teaching of a course of “Femtochemistry” for the master degree in Chemistry of the University of Perugia (2015–2022).
- Teaching of a course of “Instrumental Analytical Chemistry Lab” for the degree in Chemistry of the University of Perugia (2019).

- Teaching of a course of “Physical Chemistry Lab 2” for the degree in Chemistry of the University of Perugia (2018, 2021 and 2022).
- Teaching of a course of “Biosensors and Biomaterials” for the degree in Biotechnology of the University of Perugia (2019–2022).
- Teaching of a course of “Femtobiology” for the PhD in Biotechnology of the University of Perugia (2020, 2021, 2022).
- Member of the jury for the title of “Docteur en Sciences Naturelles, mention chimie” (PhD in Natural Science, Chemistry) at the University of Geneva, Switzerland (April 2015).
- Member of the jury for the Ugo Mazzucato prize for the best PhD Thesis in Photochemistry awarded by the Italian Photochemistry Group (since August 2021).
- Visiting professor of “Photochemistry and Spectroscopy” at the University of Coimbra, Portugal (2015).
- Visiting professor of “Femtochemistry” at the Aarhus University, Denmark (2016).
- Visiting Professor of “Femtochemistry” at the University of Bordeaux, France (2019).
- Member of the Faculty Board for the “PhD in Biotechnology” of the University of Perugia (since March 2019) and for the “PhD in Photoinduced Processes and Technologies” of National Interest (since July 2022).
- Responsible for the Quality of the degree in Biotechnology of the University of Perugia (since June 2022).
- Research advisor of several bachelor and master students: Alessandra Mazzoli (Degree in Chemistry, 2008), Alessio Cesaretti (Degree in Chemistry, 2009), Laura Paparelli (Degree in Biotechnology, 2009), Domenico Fuoco (PhD in Chemistry, 2010), Francesco Lampredi (Degree in Biotechnology, 2010), Alessandra Mazzoli (Master Degree in Chemistry, 2010), Matteo Massini Rosati (Degree in Biotechnology, 2010), Giuliano Pizzoli (Master Degree in Chemistry, 2011), Alessio Cesaretti (Master Degree in Chemistry, 2011), Laura Paparelli (Master Degree in Biotechnology, 2012), Serena Vannucci (Master Degree in Chemistry, 2013), Giulia Cacioppa (Degree in Chemistry, 2013), Fiamma Galletti (Degree in Chemistry, 2014), Francesco Lampredi (Master Degree in Biotechnology, 2014), Federica Ricci (Degree in Chemistry, 2014), Simona Fontanella (Master Degree in Biotechnology, 2014), Serena Paoletti (Degree in Chemistry, 2015), Giulia Cacioppa (Master Degree in Chemistry, 2015), Davide Delli Campi (Degree in Chemistry, 2015), Maddalena Elia (Degree in Biotechnology, 2016), Leonardo Tarlati (Degree in Chemistry, 2016), Federica Ricci (Master Degree in Chemistry, 2016), Fiamma Galletti (Master Degree in Chemistry, 2017), Irene Golembo (Degree in Biotechnology, 2017), Davide Delli Campi (Master Degree in Chemistry, 2017), Letizia Mencaroni (Master Degree in Chemistry, 2019), Elena Ferraguzzi (Master Degree in Chemistry, 2020), Chiara Montanari (Degree in Chemistry, 2020), Erika Pasciucco (Degree in Chemistry, 2020), Martina Alebardi (Degree in Chemistry, 2020), Giulia Pantella (Degree in Biotechnology, 2020), Antonio Lattanzi (Degree in Biotechnology, 2020), Mariafrancesca Coccimiglio (Master Degree in Chemistry, 2021), Maria Aurora Mancuso (Master Degree in Chemistry, 2021), Alessandro Armadoro (Degree in Chemistry, 2021), Pietro Mancini (Degree in Biotechnology, 2022), Gianmarco Reali (Degree in Biotechnology, 2022), Alessia Ciaramelletti (Degree in Biotechnology, 2022), Renato Allegrezza (Degree in Biotechnology, 2022), Chiara Montanari (Master Degree in Chemistry, 2022), Martina Alebardi (Master Degree in Chemistry, 2022), Cesare Boriosi (Degree in Chemistry, 2022), Roberto Cantoni (Degree in Chemistry, 2022), Antonietta Garofalo (Degree in Biotechnology, 2022).
- Research advisor of PhD students: Tommaso Bianconi (PhD in Biotechnology, 2020-2023), Chiara Montanari (PhD in Biotechnology, 2022-2025), Martina Alebardi (PhD in Photoinduced Processes and Technologies, 2022-2025).
