### *Curriculum Vitae*

#### **Education and professional qualification**

- *From 29 November 2019:* Associate Professor VET/09, Department of Veterinary Medicine, University of Perugia,
- *From 29 November 2019 up to the present:* Lecture (RTD-B) in Veterinary Surgery (SSD VET/09), Department of Veterinary Medicine, University of Perugia. Research project: Evaluation of anatomical variations of equine lumbosacroiliac region: ex-vivo comparison between ultrasonographic and computed tomographic findings and correlation with abnormal findings and poor performance on clinical cases.
- *March 15, 2021:* Diplomate American College of Veterinary Sport Medicine and Rehabilitation (ACVSMR) Equine.
- *March 5, 2021:* Diplomate European College of Veterinary Sport Medicine and Rehabilitation (ECVSMR) Equine.
- *1 August 2018 – 28 November 2019:* Research Grant in Equine Orthopaedics. Correlation between radiographic abnormalities and anatomical variations of the cervicothoracic junction of the equine cervical vertebra. Veterinary Teaching Hospital, Department of Veterinary Medicine, University of Perugia, Italy
- *21 August 2017 – 28 June 2020:* Practice Experience Residency of the American College of Veterinary Sport Medicine and Rehabilitation (ACVSMR), Equivet Veterinarios (Dr. Romero), Madrid (Spain) and University of Perugia (Italy).
- *March 2017-Dicember 2017:* Advance training course in Statistics methods for research and biomedical practice. Università La Sapienza, Roma.
- *31 March, 2017:* National Scientific Abilitation as Associate Professor
- *9 December 2016:* Certified ISELP (International Society of Equine Locomotor Pathology)
- *From 15 June 2015 to 14 June 2018:* Research Fellow in Equine Orthopaedics and Diagnostic Imaging. Veterinary Teaching Hospital, Department of Veterinary Medicine, University of Perugia, Italy
- *From May 2012 to 14 June 2015:* senior scholarship and grant research on the importance of sympathetic innervation, adrenergic receptors, and possible local catecholamine production in the development of deep digital flexor tendinopathy in the digit of the horse. Department of Veterinary Medicine, University of Perugia, Italy
- *28 October 2014:* winner of the award for young Researcher assigned by the Italian Society of Veterinary Science.
- *From May 2011 to April 2012:* senior scholarship and grant research on the identification of sympathetic innervation, adrenergic receptors, and possible local catecholamine production in the development of deep digital flexor tendinopathy in the digit of the horse. Department of Veterinary Pathology, Diagnostic and Clinic, Faculty of Veterinary Medicine, University of Perugia, Italy.

- *From 15<sup>th</sup> June 2009 to 14<sup>th</sup> August 2010*: junior scholarship and grant research on the comparison of the efficacy and safety between prosthetic laryngoplasty and laryngeal pacemaker in the treatment of left laryngeal hemiplegia in the horse. Department of Veterinary Medicine, University of Perugia, Italy
- *From January 2008 to February 2011*: PhD-student in equine clinical science. PhD thesis on *Comparison of radiography and ultrasonography for detecting trochlear ridge osteochondrosis lesions in the equine stifle*.
- *November 2007*: State certification to practice Veterinary Medicine, University of Perugia, Italy.
- *27<sup>th</sup> October 2007*: University degree in Veterinary Medicine, Faculty of Veterinary Medicine, University of Perugia, Italy.

## Work experience

- *From December 2019*: Senior clinicians in the Veterinary Teaching Hospital of the Faculty of Veterinary Medicine, University of Perugia, Italy, in the Large Animal Section (99 % equine; 1% bovine and small ruminants). Responsible of Equine lameness, poor performance evaluation and diagnostic imaging service.
  - Clinician in routine ambulatory: mainly lameness and poor performance examinations and neurological cases.
  - Clinician in interpretation of diagnostic imaging (radiography, ultrasonography, computed tomography, endoscopy, MRI)
  - Supervisor during clinical training of PhD students and residents in morning rounds, case discussions, hospitalized patients treatments, intensive care (laminitis, fracture) with night and weekend shafts;
  - Public relations: developed strong client communication skills through close interaction with clients. Filled discharge certificates for guidelines for the owner after horses discharge.
  - Out of hours: orthopaedics and neurological emergencies
- *From April 2019 up to the present*: Official Veterinary for Historical race “Quintana Tournament”, Foligno (PG), Italy
- *From 2018*: Member of the Veterinary Committee for evaluation of healthy status of Stallions and Elite Breeding Mares of the Italian Warmblood Studbook, MIPAAF, Italy.
- *From January 2016 to November 2019*: Senior clinicians in the Veterinary Teaching Hospital of the Faculty of Veterinary Medicine, University of Perugia, Italy, in the Large Animal Section (99 % equine; 1% bovine and small ruminants) with particular attention to diagnostic imaging section:
  - Practice and study of the main diagnostic imaging techniques (radiology, ultrasonography, computed tomography) concerning orthopaedics (musculoskeletal radiology, ultrasound and computed tomography), internal medicine (thoracic ultrasound and radiology, abdominal ultrasound; thoracic and abdominal computed tomography in foal) and emergency (colic, fracture, wound);
  - Clinician in routine ambulatory: mainly lameness and poor performance examinations and neurological cases.
  - Supervisor during clinical training of PhD student and resident in morning rounds, case discussions, hospitalized patients treatments, intensive care (laminitis, fracture) with night and weekend shafts;
  - Public relations: developed strong client communication skills through close interaction with clients. Filled discharge certificates for guide-lines for the owner after horses discharge.
  - Out of hours: orthopaedics and neurological emergencies
  - Clinical Teacher in musculoskeletal ultrasonography and radiology and basic principles of scintigraphy and MRI to veterinary students.
- *From January, 2013*: Team Vet of Freedom Horseriding Endurance Team.
- *From January 2012 up to December 2016*: Senior clinicians in the Veterinary Teaching Hospital of the Faculty of Veterinary Medicine, University of Perugia, Italy, in the Large Animal Section (99 % equine; 1% bovine and small ruminants) with particular attention to diagnostic imaging section:

- Practice and study of the main diagnostic imaging techniques (radiology, ultrasonography, computed tomography) concerning orthopaedics (musculoskeletal radiology, ultrasound and computed tomography), internal medicine (thoracic ultrasound and radiology, abdominal ultrasound; thoracic and abdominal computed tomography in foal) and emergency (colic, fracture, wound);
- Clinician in routine ambulatory: mainly lameness and poor performance examinations, and neurological cases.
- Supervised clinical training in morning rounds, case discussions, hospitalized patients treatments, intensive care (colic, dystocia, neonates, internal medicine cases, fracture), anaesthesiology, neonatology with night and weekend shafts;
- Public relations: developed strong client communication skills through close interaction with clients. Filled discharge certificates for guide-lines for the owner after horses discharge.
- Out of hours: dystocias, colics, fractures, traumatic injuries, etc.
- Clinical Teacher in musculoskeletal ultrasonography and radiology and basic principles of scintigraphy and MRI to veterinary students.
- *From January 2011 up to June 2015*: Part time equine private practitioner as second opinion vet for radiographic and ultrasonographic examination in the field and ultrasound-guided procedure for tendon/ligament lesions.
- *From November 2007 to December 2011*: Supervised junior clinicians in the Teaching Hospital of the Faculty of Veterinary Medicine, University of Perugia, Italy, in the Large Animal Section (99 % equine; 1% bovine and small ruminants):
  - Practice and study of the main diagnostic imaging techniques (radiology and ultrasonography) concerning orthopaedics (musculoskeletal radiology and ultrasound), internal medicine (thoracic ultrasound and radiology, abdominal ultrasound) and emergency (colic, fracture, wound);
  - Supervised clinical training in morning rounds, case discussions, hospitalized patients treatments, intensive care (colic, dystocia, neonates, internal medicine cases, fracture), anaesthesiology, neonatology with night and weekend shafts;
  - Supervised clinical training in routine ambulatory: lameness examinations and internal medicine cases
  - Active participation and study of surgical techniques (hard and soft tissues).
  - Public relations: developed strong client communication skills through close interaction with clients. Filled discharge certificates for guide-lines for the owner after horses discharge.
  - Out of hours: dystocias, colics, fractures, traumatic injuries, etc.
  - Supervised teacher in musculoskeletal ultrasonography and radiology and basic principles of scintigraphy and MRI to veterinary students.
- *27<sup>th</sup> June-15<sup>th</sup> July 2011*: “*See-Practice*” at Leverhulme Equine Hospital, University of Liverpool, UK.
- *May 4<sup>th</sup>-24<sup>th</sup>, 2009*: “*See-Practice*” at the Animal Health Trust-Centre of Equine Studies, Newmarket, UK.

## Teaching

- *a.a. (academic year) 2022-2023*: Lecture of Diagnostic Imaging module of the Surgery Clinic I; Lecture in Professionalising Combined Class: Diagnostic Imaging and Surgery in Large Animal Orthopaedics; Clinical rotation of Veterinary Surgery Pathology for large animal activities.
- *a.a. (academic year) 2021-2022*: Lecture of Diagnostic Imaging module of the Surgery Clinic I; Lecture in Professionalising Combined Class: Diagnostic Imaging and Surgery in Large Animal Orthopaedics; Clinical rotation of Veterinary Surgery Pathology for large animal activities.

- a.a. (academic year) 2020-2021: Lecture of Diagnostic Imaging module of the Surgery Clinic I; Lecture in Professionalising Combined Class: Diagnostic Imaging and Surgery in Large Animal Orthopaedics; Clinical rotation of Veterinary Surgery Pathology for large animal activities.
- a.a. 2019-2020 Lecture in Professionalising Combined Class: Diagnostic Imaging and Surgery in Large Animal Orthopaedics; Collaborators for frontal lessons and practical activities for Veterinary Surgery Pathology and Semeiotic and Veterinary Surgery I.
- 17 December 2018: Master in “Cultura, Tradizione e Innovazione nella Gestione del Cavallo Sportivo” Università degli Studi della Tuscia, Italy.
- October 21<sup>st</sup> 2017: Instructor at ISELP Student Program, León Vet School, Spain.
- a.a. (academic year) 2016-2017 e 2017-2018: Lecture in Professionalising Combined Class: Equine Musculoskeletal Ultrasound.
- a.a. (academic year) 2015-2016, 2016-2017 e 2017-2018: Lecture in Professionalising Combined Class: Diagnostic Imaging and Surgery in Large Animal Orthopaedics. Assistant for frontal lessons and practical activity (clinical rotation) in Veterinary Surgical Pathology and Veterinary Surgery I.
- May 16<sup>th</sup>-17<sup>th</sup>, 2015: Instructor at practical course “Equine Neurology Course”, Equine Practice, Campagnano (Rome), Italy.
- February 28<sup>th</sup>-march 1<sup>st</sup>, 2014: Instructor at theoretical and practical course “Abdominal and thoracic ultrasonography”, Department of Veterinary Medicine, Perugia.
- October 18<sup>th</sup>-19<sup>th</sup>, 2013: Instructor at theoretical and practical course “Abdominal and thoracic ultrasonography”, Department of Veterinary Medicine, Perugia.
- 21<sup>st</sup> May 2013: Invited Speaker for Scuola di Specializzazione in Medicina e Chirurgia del Cavallo of the University of Milan, Milan, Italy.
- 11<sup>th</sup> May 2013: Invited Speaker for Sanità Animale, Allevamento e Produzioni Zootecniche of the University of Perugia, Perugia, Italy.
- June 25<sup>th</sup>, 2012: Invited Speaker for Scuola di Specializzazione in Medicina e Chirurgia del Cavallo of the University of Milan, Milan, Italy.
- October 2<sup>nd</sup>, 2011: Co-Instructor at theoretical and practical course “The therapy of pain in the horse-Local, perineural and intra-articular analgesia techniques of the head and of limbs”, Perugia, Italy.
- April 16<sup>th</sup>-17<sup>th</sup>, 2011: Instructor at SIVE course “Practical course of basic ultrasonography: metacarpal, pastern, fetlock and stifle regions”, Perugia, Italy.
- November 13<sup>th</sup>-14<sup>th</sup>, 2010: Instructor (In English) at SIVE course “Clinical radiology part II: hindlimb”, Rome, Italy.
- June 4<sup>th</sup>-5<sup>th</sup>, 2010: Instructor (In English) at SIVE course “Clinical radiology part I: forelimb”, Perugia, Italy.

### Peer-reviewer publications

1. Radiographic abnormalities of the thoracolumbar spinous processes do not differ between yearling and trained Thoroughbred horses without perceived back pain. Pressanto MC, Pepe M, Coomer RPC, Pilati N, **Beccati F**. *J Am Vet Med Assoc* 2023, 261:844-851.
2. Conventional imaging is useful for assessment of equine pharyngeal squamous cell carcinoma but underestimates bone involvement. Vandermissen M, Etienne A, Dancot, M, Evrard L, **Beccati F**, Grulke S, Busoni V. *Equine Vet Educ* 2023, 35: e331-e338.
3. Post-mortem computed tomographic features of the most caudal lumbar vertebrae, anatomical variations and acquired osseous pathological changes, in a mixed population of horses. Scilimati N, Angeli G, Di Meo A, Dall’Aglia C, Pepe M, **Beccati F**. *Animals* 2023, 13:743.

4. Age and sex correlate with bony changes and anatomic variations of the lumbosacroiliac region of the vertebral column in a mixed population of horses. Scilimati N, **Beccati F**, Dall'Aglio C, Di Meo A, Pepe M. *J Am Vet Med Assoc* 2023, 261:258-265.
5. Computed tomographic diagnosis of a fracture of the floor of the pelvis in a Thoroughbred foal. Scilimati N, Schiavo S, Lauteri E, Beccati F, Angeli G, Di Meo A, Pepe M. *Equine Vet Educ* 2023, 82-86. doi:10.1111/eve.13656.
