

BIOGRAPHICAL SKETCH**NAME: Gabriele Di Sante**

eRA COMMONS USER NAME - ID: DISANTEG - 16153671, Institution: UNIVERSITY OF PERUGIA; Roles: PI SCIENTIST; IPF Code 6484701 DUNS ID 431191506

POSITION TITLE: MD, PhD, Assistant Professor**EDUCATION/TRAINING**

INSTITUTION AND LOCATION	DEGREE	Completion Date	FIELD OF STUDY
Università Cattolica del Sacro Cuore of Rome	MD	07/2007	Medicine; Immunology
Università Cattolica del Sacro Cuore of Rome	PhD	03/2011	Molecular Cardiology
Università Cattolica del Sacro Cuore of Rome	Residency	07/2016	Clinical Pathology

A. Personal Statement

I have been interested in the basic immunological mechanisms that sustain autoimmune diseases, in particular addressing the processes involved in epitope evasion from tolerance and the identification and characterization of the self-reactive T cell repertoire. During my PhD program, my residency in Clinical Pathology and more recently my Post Doc/Fellowship, I participated in numerous national and international conferences and published 30 peer-reviewed papers, with an H index of 15. I serve as MD for patients affected by different autoimmune diseases, completing my expertise with animal models and basic research with a clinical/translational approach. Since 2020 I achieved the role of Assistant Professor in General Pathology at the Università Cattolica del Sacro Cuore of Rome, School of Medicine, Biotechnology and Pharmacy. Since November 2021 I achieved the role of Assistant Professor in Human Anatomy at the University of Perugia, School of Medicine, where I have recently established my research laboratory.

B. Positions and Honors

- Degree in Medicine and Surgery and Doctorate in Cellular and Molecular Cardiology with excellence and Residency degree with excellence "cum laude".

C. Contributions to Science**Funds obtained as Principal Investigator (PI) or Head of Operative Unit (HOU) or Collaborator.**

- "Definition and regulation of T cells specific for self-antigens of the CNS"- NMSS Research Project 03/2002-03/2005 (Collaborator)
- "Analysis of the role of Myelin-specific CD8+ cells in RR-EAE by TCR centered studies" – FISM Pilot Project 2003-2004 (Collaborator)
- "Transgenic models in complex diseases (Preparation of transgenic mice carrying the PLP-specific Beta chain(s) characteristic of public CD4+ cells)". FIRB MIUR – 2004-2006 (Collaborator)
- "Analysis of the shift in TCR repertoire usage during immune response to Her-2/neu in BALB/c and BALB/neuT mice" – PRIN MIUR 2005-2006 (Collaborator)
- "Molecular mechanisms for transfer of information from environment to T cells in the pathogenesis of EAE" - FISM Pilot Project 2009-2010 (Collaborator)
- "Determinants of virus-specific immune control in viral HIV co-infections". PRIN MIUR 2010-2011. (Collaborator)

- “Latent Tuberculosis and development of a model for post-exposure vaccination”. PRIN MIUR 2010-2012. (Collaborator)
- “Molecular mechanisms for transfer of information from environment to encephalitogenic T cells in the pathogenesis of EAE”. Role of TLR2 - FISM Project 2011-2012 (Collaborator)
- “Immunoscope analysis of T cell responses to MBP85-99 in Multiple Sclerosis.” (2011-2013) Don Carlo Gnocchi Foundation. (PI)
- “Treatment of multiple sclerosis using PIF, a nontoxic immune modulatory peptide.” NIH SBIR application 1R43NS080534-01 – The application has received a score of 25. Co-applicant
- “Janus-faced” liposomes as therapeutic tools to mediate a T suppressor phenotype in Multiple Sclerosis.” FISM Project 2017-2020 (Collaborator)
- “The S100B protein as a potential therapeutic target in multiple sclerosis. An in vivo study” FISM pilot project 2018/R/11 (Collaborator).
- “The S100B protein as a potential therapeutic target in multiple sclerosis. An in vivo study” FISM pilot project 2018/R/11 (Collaborator).

D. Additional Information: Research Support and/or Scholastic Performance

Research

- Role of Antigen presenting cells from lymph node and CNS in vivo and in vitro.
- Animal models of EAE, Collagen Induced Arthritis and immunosuppressed transgenic mice.
- Balance of Th1/Th17/Treg subpopulations and B cell maturation.
- Generation of Car-T cells and Dendritic cells for application in immunotherapy

Position	Name and address of host Institute	From	To
Internship	Inst. of General Pathology (Prof. F. Ria), 'Università Cattolica del Sacro Cuore, Rome Italy.'	2002	2007
Internship	Department of Cardiology (prof Mansourati), "Université de la Bretagne" Brest, France.	2004	2005
Internship	Department of Rheumatology (Prof. G.F. Ferraccioli) Università Cattolica del Sacro Cuore, Rome	2004	2006
PhD Student	PhD program in 'Cellular and Molecular Cardiology' Università Cattolica del Sacro Cuore, Rome - Italy.	2007	2011
Residency	Inst. of General Pathology (Prof. T Galeotti- Prof R. De Maria), Università Cattolica del Sacro Cuore, Rome	2011	2016
Fellowship Post Doc	Department of Rheumatology (Prof. G.F. Ferraccioli) Università Cattolica del Sacro Cuore, Rome Italy.	2015	2017
Research Asssitant	Inst. of General Pathology (Prof. R. De Maria), 'Università Cattolica del Sacro Cuore, Rome Italy.'	2017	2019
Assistant Professor	Inst. of General Pathology, 'Università Cattolica del Sacro Cuore, Rome Italy.'	2020	2021
Assistant Professor	Inst. of Human Anatomy, University of Perugia, Italy.	2021	To date

Skills:

- Cellular biology techniques
- Molecular Biology techniques
- Grant and project manager
- Team coordinator
- Bigdata and databases analyst.
