

**MARCO BRECCOLOTTI**  
**CURRICULUM VITAE**

---

Via della Martinicca, 7  
06132 S. Maria Rossa, Perugia (I)  
email [marco.breccolotti@unipg.it](mailto:marco.breccolotti@unipg.it)

### **PERSONAL DATA**

Born in Perugia (I), 17/11/1974.

Five Years Programme Degree in Civil Engineering *cum laude* (Perugia, 1999).

Visiting Scholar at the "University of Michigan" from September to December 2002.

Philosophy Doctor at University of Perugia, January 2004.

### **CURRENT POSITION**

Assistant Professor in the field of Structural Engineering since 2006 at Department of Civil and Environmental Engineering, University of Perugia, Italy.

### **INSTITUTIONAL ACTIVITY**

Member of the Engineering Faculty Council as representative of Assistant professors (2009 - 2014);  
Member of the Council in Civil Engineering (2006 - present).

Delegate for Job Placement at the Department of Civil and Environmental Engineering, University of Perugia, Italy.

Member of the monitoring working group on the building stock of the University of Perugia.

### **ACADEMIC CAREER**

- November 2006: Researcher Scientific area ICAR 09 - Structural Engineering, Department of Civil and Environmental Engineering Faculty of Engineering of Perugia;
- January 2004: PhD in Structural Engineering (Cycle XVI) at the Department of Civil and Environmental Engineering Faculty of Engineering of Perugia with a thesis on “Application of dynamic methods in the safety of existing bridges made of structural concrete”;
- September, 2002 - December 2002: Visiting Scholar at the Department of Civil and Environmental Engineering at the University of Michigan - Ann Arbor (USA);
- October 2000 - October 2003: PhD in Structural Engineering (Cycle XVI) at the Department of Civil and Environmental Engineering Faculty of Engineering of Perugia;
- July 1999: Degree in Engineering (degree in Civil Engineering, Structural address) from the Faculty of Engineering, University of Perugia with 110/110 *cum laude*, thesis: “Design of an aluminum cable-stayed mast for testing active control devices”, supervisor Prof. AL Materazzi;

### **OFFICIAL TEACHING ACTIVITIES**

- Academic years 2009/10, 2010/11, 2011/12, 2012/13, 2013/14, 2014/15: Course “Structural Engineering”;
- Academic years 2009/10, 2010/11, 2011/12: Course “Laboratory of Structural Engineering”;
- Academic years 2006/07, 2007/08 and 2009/09: Course “Experimental tests and control of civil structures”;
- Years 2002 and 2003: professional course “Diagnosis and safety of masonry buildings” held at various locations with the theme “Impact of environmental vibration source on the constructions”.

## **OTHER TEACHING ACTIVITIES**

- Coordinator of the course on “Aspects of design and construction in the industrialized building” at the Department of Civil and Environmental Engineering, University of Perugia, Italy.
- Academic years 2001/02, 2002/03, 2003/04 and 2004/05 auditor for the projects developed by students during the course of the Design of structures held at the Faculty of Engineering of Perugia by Prof. AL Materazzi;
- Academic years from 2005/06 to date teaching assistant for the courses of Structural Engineering I and II held at the Faculty of Engineering of Perugia by Prof. AL Materazzi.

## **RESEARCH**

### **Participation in national and international research projects**

- Participation in the 2004 PRIN (Research projects of significant national interest) research program “*VINCES - Vibrations in Civil Engineering Structures: source of damage and discomfort, diagnostic and safety assessment tool*” coordinated by prof. A.L. Materazzi (University of Perugia). Local unit founding € 49700.
- Research project founded by the Fondazione Cassa di Risparmio di Perugia on “Feasibility study of the re-use in the construction of the sludge produced during the crushing and washing of aggregates”, 2005. Founding € 50226.
- Participation in the 2006 PRIN (Research projects of significant national interest) research program “*Health assessment and monitoring of civil engineering structures through advanced dynamics methods*” coordinated by prof. A.L. Materazzi (University of Perugia). Local unit founding € 60429.
- Israel-Italy Joint Innovation Program for Industrial, Scientific and Technological Cooperation in R&D, 2013, research program “Production of Recycled Aggregate from construction and demolition waste using Yutkin's Shock waves (RAYS)”, Local unit founding € 102000.

### **Research interests**

- recycled aggregate concrete;
- safety assessment of existing reinforced concrete structures by means of NDT;
- identification of damage in reinforced concrete structures through dynamic tests;
- assessment of structural damage and annoyance induced by ambient vibrations;

- evaluation of the fire resistance of reinforced concrete structure;
- active control of flexible structures.

## **UPDATE AND SPECIALIZED COURSES**

- February 2008: Participation in the course "TC2: Nonlinear Dynamics and Control of Structural and Mechanical Systems" held at the University of Technologies, Vienna (A);
- March 2003: participation to the course "Structures Composed in New Construction in recoveries and Bridges: Advanced Technical Design" held at the CISM - Udine;
- September 2002 - December 2002: Participation in the course "Bridge Design" held by prof. A. Nowak from the University of Michigan - Ann Arbor (USA);
- September 2002 - December 2002: Participation in the course "prestressed Concrete" held by prof. A. Naaman at the University of Michigan - Ann Arbor (USA);
- September 2002 - December 2002: Participation to the course "Design of Advanced Concrete Structures" held by prof. J. Wight, University of Michigan - Ann Arbor (USA);
- November 2001: participation at the conference "The fracture mechanics in concrete high-performance" held at the University of Brescia - Brescia
- July 2001: participation at the conference "Structural Dynamics of phenomena, methods, observations and models", held at the Faculty of Engineering, University of Rome "La Sapienza" - Rome.

## **REFEREE FOR INTERNATIONAL JOURNALS**

- Engineering Structures (Elsevier)
- Construction and Building Materials (Elsevier)
- Structural Engineering International (IABSE)
- Non-destructive Testing and Evaluation (Taylor and Francis)
- PCI Journal (PCI)
- Journal of Zhejiang University-SCIENCE A – Applied Physics and Engineering
- IJEMS – Indian Journal of Engineering & Materials Science
- Materials Research Innovations
- Engineering optimization
- Journal of Building Engineering
- Structural concrete
- Advances in Materials Science and Engineering
- ASTM Journal of Testing and Evaluation

## **MEMBERSHIP IN SCIENTIFIC ASSOCIATIONS**

- Member of the International Association for Bridge Maintenance and Safety (IABMAS);
- Member of the International Association for Bridge and Structural Engineering (IABSE).

## PUBLICATIONS
